A Redesign Proposal
## qBittorrent Brand
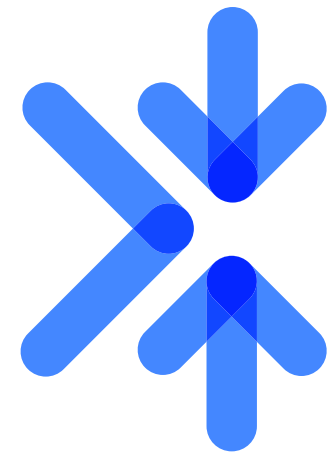

QBittorrent
Free & Reliable Client

Logo Mark

The **LogoMark + Type** indicates a place for all your downloads. The arrow enforces a user to focus on the word **"QBittorent"** while being used this way.
The logomark on its own is a centre driven approach that would indicate a place for all the files.

Colour has been appropriately chosen to ensure the user has **trust** in the brand while showcasing the **open source** & **reliable** nature of the software.

QBittorrent
